Account Management Office - 780-442-4657

30 Years - Providing Lock Rekeys & Key Management

Home & Office

Who Has Keys to Your Property?

1 To rekey your locks, we remove the hardware (handle and deadbolt) from your door.
The locks are then taken apart so that the system inside can be changed.

2 Precision tools are used to create a new key that will now operate the lock. Once the new key is created and the lock pins have been changed, the old keys will no longer open the lock.

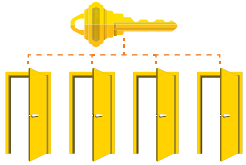

3 Deadbolts and handles are now reinstalled and new keys are presented to the customer.

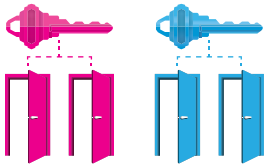

4 If you wish, we can key all the locks to one key or split the keying into groups as needed.

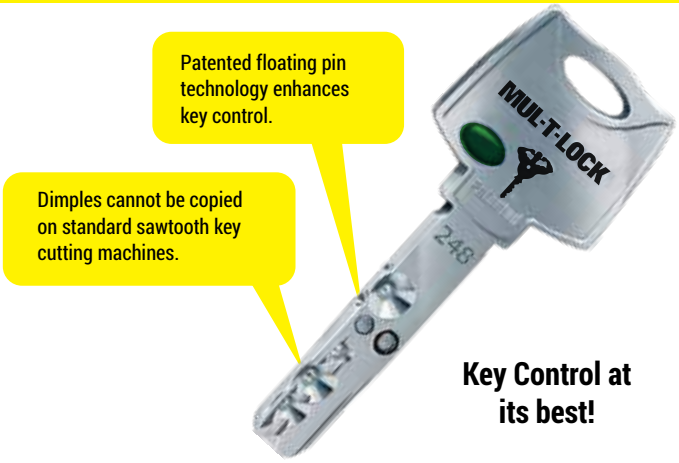

One key for all doors

Two different keyed groups

MUL-T-LOCK KEY CONTROL
for HOME, OFFICE & COMMERCIAL USE

- Keys are distributed by you to authorized users.
- Keys cannot be copied by staff, tenants, friends or family without your authorization.
- Key information is recorded for you in a file that is kept in a secure safe at our security centre.
- *Non-pickable and drill resistant.*
- Ask about our Easy Rekey Option (3 in 1 System)

Key Control at its best!

Superior Deadbolts

This is the deadbolt that **delivers security**

- Mul-T-Lock special hardened bolt made of saw resistant steel.
- Steel shroud covers bolt extension to maximize resistance to physical attacks
- Free spin, solid rings, made from solid brass for added protection against forced entry.
- Fitted with an advanced steel ball bearing mechanism that locks the door to the jamb.

Home and Business Security Hardware

Mul-T-Lock Deadbolts and keys

- Deadbolt security that really works.

- Designed for maximum protection.
- Easy 3-in-1 rekey system

BEE COOL™ GLASS COATING

We Help You Find the Right Product application for Every Room & Every Window

Year-Round Comfort

Create cool and comfortable living spaces.

Our glass coatings keep your home cool and comfortable by reducing Solar Energy Heat and damaging UV Rays.

- **99%** UV Rejection
- up to **79%** Heat Reduction*
- up to **84%** Glare Reduction
- Increase Privacy Live Better

Heat Rejection* up to 79%

Rooms become comfortable year round, costs and maintenance of heating and cooling systems are reduced and temperatures from room to room are easier to balance.

UV Protection 99%

Reduce fading and keep furnishings looking brighter for longer. Ultraviolet light is the main cause of fading, and our window films block 99% of UV rays from entering your home.

Glare Reduction up to 84%

A reduction in glare will give you a clear view of your TV and computer screens. Bee Cool Glass Coatings can help reduce eye strain and get back the view you have already paid for.

3. On-site Consultation

The Bee Cool technicians will meet you on site, help you find the correct product to meet your specific needs and take the necessary measurements. It is our job to get it right so you get the best benefit from your purchase.

BEE COOL GLASS COATING

It's time to get BEE COOL™ working for you!

Popular Product Sample Selection

BEE COOL

Elite 50

65% 43% 99%

Clear Heat Rejection

Elite 50 is specifically designed for maximum heat rejection while maintaining large amounts of natural light. With our *Smart Coating Technology*© you are able to enjoy summer heat rejection and winter heat retention, providing year-round comfort and energy savings.

SLIGHT TINT — MEDIUM — DARK

Minimal Change

BEE COOL

Bee Cool 25

67% 70% 99%

A Slight Tint

Bee Cool 25 is designed for heat rejection and minor glare reduction, resulting in very little interior reflectivity day or night, leaving a crisp clear view. The exterior of your home or business will have a black chrome look with medium privacy.

SLIGHT TINT — MEDIUM — DARK

Probably won't realize it's there

BEE COOL

Bee Cool 15

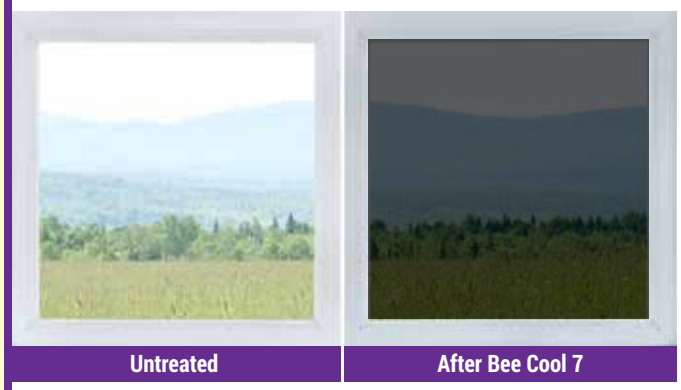

75% 83% 99%

Reduce Glare

Bee Cool 15 brings a warm, neutral tone to any room. The exterior of your home or business glass will have a black chrome look, giving daytime privacy and adding class to your glass. Excellent for glare and heat reduction

SLIGHT TINT — MEDIUM — DARK

Excellent Glare Reduction

Bee Cool 7

84% 94% 99%

Darkest Tint

Bee Cool 7 is the darkest of all our glass coatings. It is quite often used to create a one-way mirror or limit light coming into bedrooms, media rooms, food manufacturing facilities and many other applications where a heavy tint is required.

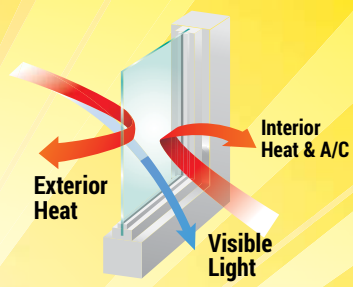

SLIGHT TINT — MEDIUM — DARK

Great for Media Rooms

ICON LEGEND

Heat Reduction* | Glare Reduction | UV Rejection | Increase Privacy | Safety & Security

Bee, like the bumble, Cool glass coatings.

Same Day Consultation and Installation

BEE COOL

Platinum 20

79% 84% 99%

One Way Mirror Effect

Bee Cool Platinum 20 is a reflective glass coating that provides excellent heat rejection and a mirrored look from the outside. This product is fantastic for large buildings looking to dramatically reduce HVAC costs, or increase privacy.

SLIGHT TINT | MEDIUM | DARK

Commercial Use Only

BEE COOL

Bronze 20

78% 72% 99%

Warm Hue

Bronze 20 aids in energy savings by cutting heat, reducing hot spots and increasing overall comfort. It provides a deep bronze hue to your glass from the outside, giving you fantastic privacy, while maintaining a clear view outside.

SLIGHT TINT | MEDIUM | DARK

Unique Look

BEE COOL

Bee Safe 8

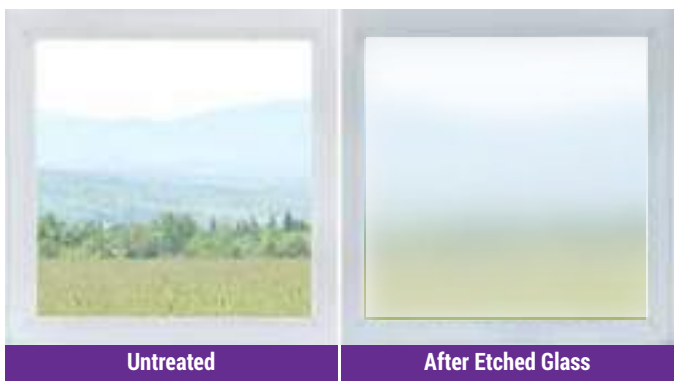

96%

Safety & Security

Bee Safe Glass Coatings are virtually clear and incredibly strong. They are designed to withstand hurricane force winds, explosive pressure, vandalism and high velocity debris, providing maximum amounts of physical protection, optical clarity and aesthetic value.

SLIGHT TINT | MEDIUM | DARK

Virtually Clear

Etched Glass

99%

Decorative & Privacy Frosting

Bee Cool Etched Glass can be used for privacy or to create a decorative look in a business or home, letting in only soft light and minimal detail. It can be cut to create custom solutions to fit almost any graphical need or idea you may have, and can also be removed and updated.

SLIGHT TINT | MEDIUM | DARK

Increase Privacy without Limiting Light

Please note: all data values and imagery above are representative and are provided for comparison purposes only. Actual colours or shades may vary.
* Heat rejection percentages shown is equal to total solar energy rejected as per the National Fenestration Rating Council.

Bee Cool Glass Coating adds value to your home.

4. Product Demonstration

With the on-site demonstration you will be able to feel and see the performance of our products before installation. You are making an investment and our product display and test will verify you are making the right choice.

5. Professional Installation

Drop cloths and other preventative measures will be taken to ensure your belongings are protected during installation. Professional installation means clean, crisp results that bring years of benefits.

6. Care Package

After the installation is complete the technicians will do a complete walk through of your project with you and provide you with a free cleaning and care package.

It's Easy to Get Started.

Jay Brown ★★★★★ *Customer Review

"These guys are the best contractors I have ever hired. Organized, professional, they don't have sales people. You actually get to deal with the installer from start to finish and they gave me a quote while on site. After the job was done they cleaned everything up and even helped me move some furniture back. Product works great. Very impressed."

Callingwood Pharmacy ★★★★★ *CustomerReview

"Paul always goes above and beyond to make sure you are well looked after. Helpful advice given to help select a product, excellent job on installation, superb after-sales support. Outstanding service from start to finish."

Motion Sensors

Let you know when someone is coming or going.

Wireless Entry / Exit Signal Kit — Sets up in minutes!

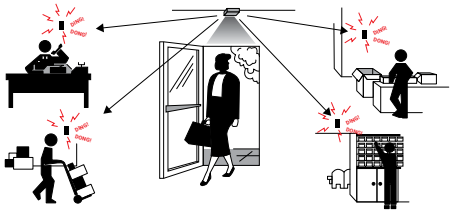

Prevent Unannounced Entry | Excellent for Home use

- Easy to set up.
- Up to 100 ft range.
- Wireless battery-operated door contact
- Adjustable volume control.
- For Entry door, patio or garden doors, children's rooms and even sheds.
- Office use: Entry doors, stock or tool rooms, offices, etc.
- 1 note, 2 note or 8 note melody chime

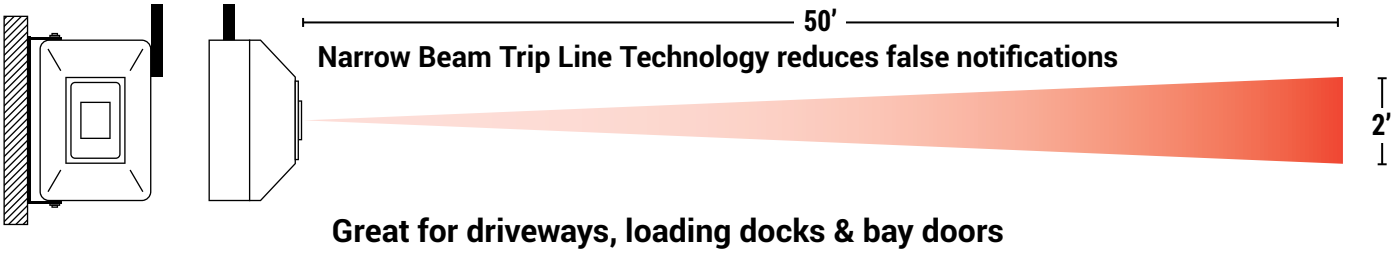

Door Announcers — Sets up in minutes!

Prevent Unannounced Entry | Office / Store / Shop use

The AV-100 motion detector incorporates state-of-the-art passive infrared (PIR) technology that detects infrared energy emitted by the human body, when in motion, within a given detection area. This unit is not affected by sunlight, car headlights, reflections, shadows or colours and will operate with a door open or closed

Exterior Wireless Sensor & Receiver Kit | TX2000A & RX2000A — Sets up in minutes!

Narrow Beam Trip Line Technology reduces false notifications

Great for driveways, loading docks & bay doors

- Up to 1000 ft range.
- Simple to use and easy to maintain.
- Volume control.
- A number of sensors or receivers can be run in combination.
- Features additional contact points so strobe lights or additional horns may be added.
- Sensor unit runs on a 9 volt battery and receiver plugs in anywhere you like.

Door Viewers

Know who's at your door.

Quality Standard Door Viewers

Stand Away Viewer
- The "viewer" can stand at a distance of up to 7' from the door and see a "clear image" of the visitor outside.

Stand up to 7' from the door

Revolving Viewer
- Revolving feature gives 140" of vision in the direction the viewer is pointed.
- For doors 1" to 2" thick.
- Crystal optical glass viewer.

Standard Door Viewer
- For home or apartment doors
- Fire rated where required
- Glass lens
